ADA- SRHS is committed to complying fully with the Americans with Disabilities Act. For special needs, please call (864) 560- 6282 by April 28.

CONTINUING EDUCATION CREDIT (Accreditation Statement)

The University of South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

These activities are accredited for a maximum of **8 live contact hours (0.8 CEUs)** for pharmacy technicians (Learning Objectives, UANs and credit hours as specified on pages below). To claim credit, participants must register for the event, have their attendance at the live event verified, participate in all active learning activities, and complete all learning assessments during the activity. Participants must attend an hour-long session in its entirety to claim credit; no partial credit will be issued. Participants must complete an online evaluation within 30 days (providing their correct NABP e-Profile ID and month/day of birth) in order to ensure credit is reported to the NABP CPE Monitor. The CPE Monitor will automatically reject all credit claimed and reported greater than 60 days from the date of the live activity.

Please visit <http://cop.sc.learningexpressce.com> to contact the CPE provider with any questions regarding CPE credit.

AM Session Learning Objectives

I. Medication Safety in the Geriatric Population

(ACPE UAN 0062-9999-22-037-L05-T, 1 credit hour, application-based)

Objectives:

1. Describe a framework for improving medication safety practices in the geriatric population
2. Identify age-related changes in older adults that can impact medication therapy
3. Identify common red flags in geriatric medication regimens
4. Assess a safety scenario/event and recommend a plan of action to improve medication safety

II. Pharmacy Law: Contraception & Women's Health

(ACPE UAN 0062-9999-22-038-L03-T, 1 credit hour, knowledge-based)

Objectives:

1. Discuss current contraceptive prescribing practices by pharmacists in the United States
2. Describe established access pathways to contraception in South Carolina
3. Identify and describe opportunities and challenges to pharmacist provided contraception services
4. Describe proposed legislation, including South Carolina's Pharmacy Access Act

III. Pharmacy Technicians & Vaccination

(ACPE UAN 0062-9999-22-039-L06-T, 1 credit hour, application-based)

Objectives:

1. Discuss implications of current legislation on immunization practices incorporating pharmacy technicians
2. Identify requirements for vaccinating patients, including education, administration, and documentation
3. Recommend appropriate practices for vaccine administration, emergency management, and safety
4. Summarize recent changes to ACIP and CDC recommendations for pediatric & adult patients

IV. Effective Communication Strategies

(ACPE UAN 0062-9999-22-040-L04-T, 1 credit hour, knowledge-based)

Objectives:

1. Describe emotional intelligence
2. Discuss results of emotional intelligence assessment
3. Identify your personality type using the Myers-Briggs Type Indicator (MBTI) assessment
4. Discuss communication styles and strategies for interpersonal communication
5. Discuss common conflicts at work and effective methods for conflict resolution, including the Thomas-Kilmann Conflict Mode instrument

PM Session Learning Objectives

IV. COVID-19 Update: Vaccines, Therapeutics & Testing

(ACPE UAN 0062-9999-22-041-L06-T, 1 credit hour, knowledge-based)

Objectives:

1. Discuss current recommendations for prevention, identification, and treatment of COVID-19
2. List available COVID-19 vaccines and describe safety and efficacy considerations
3. List available COVID-19 treatments and describe safety and efficacy considerations
4. Describe best practices for testing in the outpatient setting for COVID-19, including the utility of home-based testing

II. Medication Safety in the Pediatric Population

(ACPE UAN 0062-9999-22-042-L05-T, 1 credit hour, application-based)

Objectives:

1. Describe a framework for improving medication safety practices in the pediatric population
2. Identify age-related changes in pediatric patients that can impact medication therapy
3. Identify common red flags in pediatric medication regimens
4. Assess a safety scenario/event and recommend a plan of action to improve medication safety

III. Pharmacy Law: Complementary and Alternative Medicines

(ACPE UAN 0062-9999-22-043-L03-T, 1 credit hour, knowledge-based)

Objectives:

1. Define complementary, alternative, and integrative medicine practices
2. Discuss the regulation of natural products, including associated laws that govern the sale of natural products
3. Discuss safety concerns with natural products, including production, quality assurance, and hazards of use
4. Discuss legal implications associated with the use and sale of common products

IV. CAM Practices & Products

(ACPE UAN 0062-9999-22-044-L04-T, 1 credit hour, knowledge-based)

Objectives:

1. List and describe complementary, alternative, and integrative medicine practices and products
2. Identify reliable resources regarding complementary, alternative, and integrative medicine practices and products
3. For complementary and integrative medicine practices, describe each practice, associated theory and training, and available safety and efficacy data
4. For natural products, discuss the use of common products and safety and efficacy considerations

Additional information will be included in the confirmation email that you receive upon registering for the event through Eventbrite.
