4:15 pm – Wrap-up: Accessing your CE documentation

## Learning Objectives:

### Ms. Debra K. Black: Opioid Monitoring for Pharmacies (1 Credit Hour)

ACPE# 0062-9999-18-048-L03-P/T

At the completion of this activity, the pharmacist and pharmacy technician will be able to:

- Identify required records to be in compliance with DEA regulations
- Recognize opioid prescribing which is out of the normal prescribing patterns
- Detect various red flags of diversion related to prescribing and dispensing of controlled substances

### Dr. C. Wayne Weart: New Drug Update 2017-2018 (2 Credit Hours)

ACPE#: 0062-9999-18-049-L01-P/T

At the completion of this activity, the pharmacist will be able to:

- Discuss the FDA Warnings and label changes that relate to medication safety and how this information should be applied in the selection and monitoring of evidence-based pharmacotherapy to achieve better patient related outcomes
- Describe the 2018 updated ACIP/CDC Immunization recommendations and new FDA approved vaccines.
- Describe the current information concerning newly FDA approved medications (pharmacology, pharmacokinetics, efficacy and safety data, drug interactions, dosing, monitoring and cost) in the selection of evidence-based pharmacotherapy
- Compare and contrast these selected newer agents to the existing therapies and be able to recommend an appropriate medication regimen for a specific patient.

At the completion of this activity, the pharmacy technician will be able to:

- Discuss the FDA Warnings and label changes that relate to medication safety.
- Describe the 2018 updated ACIP/CDC Immunization recommendations and new FDA approved vaccines.
- Describe the current information concerning newly FDA approved medications (drug interactions, dosing, adverse effects, and cost)

## Dr. Bryan Amick: The Impact of Medicare and Medicaid on Pharmacy Practice (2 Credit Hours)

ACPE# 0062-9999-18-050-L04-P/T

At the completion of this activity, the pharmacist and pharmacy technician will be able to:

- Describe the historical context of the creation and development of Medicare and Medicaid (P/T).
- Summarize the role that Medicare and Medicaid play in the healthcare system, relative to other payer participants.
- Explain the various components of pharmacy cost, from the perspective of Medicaid and Medicare, and how those cost components drive changes in pharmacy reimbursement.
- Describe recent and upcoming changes to Medicaid coverage policy, with a focus on opioids and formulary approaches.
- Discuss recent legislative developments related to healthcare and how they are likely to impact the practice of pharmacy.
- Identify specific challenges and opportunities that change in Medicaid and Medicare present to his/her pharmacy practice environment (P).

## Dr. Matt Walker: The Evolving Role of Pharmacists and Technicians in Healthcare and Maintaining a Competitive Presence in the Job Market (1 Credit Hour)

ACPE# 0062-9999-18-051-L04-P/T

At the completion of this activity, the pharmacist and pharmacy technician will be able to:

- Describe the current pharmacist and technician job market
- Discuss the evolution of pharmacist/technician credentials and their corresponding responsibilities
- Evaluate CV and resume components for use in career search and job interview
- Identify elements of a plan to properly market pharmacist and technician skills in an increasingly competitive field.

Credit card payments accepted online\*: <https://squareup.com/store/pdc>

\* A convenience fee of 3.5% will be added to your tuition to cover online payment processing.

Venmo payments accepted – please send to @pdcalphakappawkf

Check payments accepted – please make checks payable to:  
Phi Delta Chi, Attn: Faye Ratliff South Carolina College of Pharmacy  
280 Calhoun Street, MUSC 140, QE225, Charleston, SC 29425

For questions, please contact Andrea Kaifesh – [kaifesh@musc.edu](mailto:kaifesh@musc.edu)

As a professional pharmacy fraternity, Phi Delta Chi promotes scholastic, professional, and social growth in its Brothers. This CE program extends this mission to pharmacy professionals in our community for the sake of bettering patient care. It combines scholastic and professional growth by educating attendees on the most up-to-date drugs, immunizations, compounding practices, and laws, while providing a social atmosphere in which to network and interact with colleagues. This program provides the information necessary for the attending pharmacist to effectively serve his or her patients with the most current information on these selected topics.

## SPEAKERS:

- Debra K. Black is the Diversion Group Supervisor at the DEA Diversion Group in Columbia, South Carolina
- Dr. C. Wayne Weart, PharmD, BCPS, FASHP, FAPhA, is a Professor for the Dept. of Clinical Pharmacy and Outcome Sciences, SCCP-MUSC.
- Dr. Bryan Amick, PharmD, PhD, MS, MBA, is the acting Deputy Director for the Office of Health Programs for the SC Department of Health and Human Services.

CONTINUING EDUCATION CREDIT

The University of South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. This program is accredited for a total of 6 live contact hours for pharmacists and 6 live contact hours for pharmacy technicians. Participants must sign-in at the beginning of the day and attend each program to obtain maximum credit. Detailed instructions on how to claim CE credit will be provided at the program. Participants must create or update their Learning Express profile with their NABP e-profile ID and birth month/date and complete the online program evaluations in order for credit to be submitted to the NABP CPE Monitor System. Participants must complete their evaluations within 30 days of the program to ensure credit is transmitted. Any credit claimed greater than 60 days after the conclusion of the program will not be accepted by the NABP CPE Monitor. *This is a knowledge-based program.*
