## Educational Objectives

Compounding Sterile Preparations 2016  
ACPE #0062-9999-16-067-L03-P/T

Upon completion of this program, pharmacists and technicians will be able to:

1. List requirements of current USP Chapter <797>, the newly published Chapter <800>, and sections of USP Chapter <795> relevant to institutional practice.
2. Review implementation timelines from regulatory agencies for enforcement of new or proposed requirements from USP or FDA.
3. Review hazardous drug handling, storage, administration and disposal laws and best practices from USP <800>.
4. Compare current state and federal law vs current guidelines vs best practice regarding sterile, non-sterile, and hazardous compounding.
5. Describe tools and methods to drive compliance with safety and legal requirements in sterile, non-sterile and hazardous compounding.
6. Discuss examples of sterile compounding errors or contamination.

Pre-registration required: <http://scoop.learningexpressoc.com>

Registration fee: \$35

Registration will remain open until capacity is reached.

Please note: if your hospital provides educational support, please use coupon code to register.

Cancellation Policy: All refunds should be requested at least 5 days prior to date of activity and will be subject to a \$15 administration fee. Substitutions are permissible.

## Statement of Accreditation

The South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program is accredited for a total of 2 contact hours (0.2ceus for pharmacists and pharmacy technicians). Participants must sign in at the beginning of the program, attend the entire session, successfully complete the post-test, and complete the on-line evaluation within 30 days of the live event. Participants must update their NABP e-profile to allow reporting to the CPE monitor. No partial credit will be awarded. This is a knowledge based learning activity. Initial release date: April 6, 2016.
