| 9:05 am – 10:05 am | Hot Topics in Health-System Pharmacy 2023 Sarah Harrison, PharmD, BCCCP; Pharmacy Executive Director, Vizient <i>ACPE UAN 0062-9999-23-140-L01-P/T (1 credit hour, knowledge-based activity)</i> At the completion of this activity, the pharmacist will be able to: <ol style="list-style-type: none"> 1. Review the mechanism of action and approved indications for lecanemab, terlipressin, and Respiratory Syncytial Virus (RSV) vaccine and monoclonal antibody (mAb) 2. Summarize lecanemab, terlipressin, and RSV vaccine and mAb place in therapy 3. Describe health-system considerations for lecanemab, terlipressin, and RSV vaccine and mAb At the completion of this activity, the pharmacy technician will be able to: <ol style="list-style-type: none"> 1. Recall the approved indications for lecanemab, terlipressin, and RSV vaccines and mAb 2. Recognize pharmacy and care areas where lecanemab, terlipressin, and RSV vaccine and mAb are provided 3. Describe health-system considerations for lecanemab, terlipressin, and RSV vaccine and mAb |
| 10:05 am – 10:15 am | Break |
| 10:15 am – 11:15 am | Buprenorphine for Opioid Use Disorder (OUD): a Review of Novel Initiation Strategies with a Focus on Microdosing Induction Sophie Robert, PharmD, BCPP; Clinical Pharmacy Specialist Psychiatry, Affiliate Faculty, MUSC <i>ACPE UAN 0062-9999-23-141-L08-P/T (1 credit hour, application-based activity)</i> At the completion of this activity, the pharmacist and pharmacy technician will be able to: <ol style="list-style-type: none"> 1. Describe the epidemiology and pathophysiology of opioid use disorder (OUD) 2. List current FDA approved medications for the treatment of OUD 3. Discuss the pharmacology of buprenorphine 4. Review alternatives to standard buprenorphine induction 5. Apply acquired knowledge to a patient case |
| 11:15 am – 12:15 pm | Adding Coverage: Implementing a Tele-Antimicrobial Stewardship Program Across a Multi-Center Health System Aaron Hamby, PharmD, BCIDP; Clinical Pharmacy Specialist – Infectious Diseases, MUSC Health Erin Brewer, PharmD, BCPS; Clinical Pharmacy Manager – MUSC Health Florence Medical Center <i>ACPE UAN 0062-9999-23-142-L04-P/T (1 credit hour, application-based activity)</i> At the completion of this activity, the pharmacist will be able to: <ol style="list-style-type: none"> 1. Define the role of tele-antimicrobial stewardship as it applies to the Center for Diseases Control and Prevention (CDC) core elements of hospital stewardship 2. Analyze current literature on tele-antimicrobial stewardship 3. Identify strategies associated with incorporating stewardship programs in regional sites' workflow 4. Develop action plans for expansion to regional sites given various examples At the completion of this activity, the pharmacy technician will be able to: <ol style="list-style-type: none"> 1. Outline the CDC core elements of tele-antimicrobial stewardship 2. Discuss current literature regarding tele-antimicrobial stewardship 3. Describe strategies associated with establishing antimicrobial stewardship in regional sites' workflow 4. Create action strategies to incorporate antimicrobial stewardship to regional sites given multiple examples |

| Tuesday, October 3, 2023 - Continued | |
|--------------------------------------|--|
| 12:15 pm – 1:30 pm | Lunch & Networking |
| 1:30 pm – 2:30 pm | Clinical Skills Competition 2023 Moderator and Teams: TBA <i>ACPE UAN 0062-9999-23-143-L01-P/T (1 credit hour, knowledge-based activity)</i> <i>At the completion of this activity, the pharmacist and pharmacy technician will be able to:</i> <ol style="list-style-type: none"> 1. Describe pharmacist impact on commonly encountered clinical scenarios 2. Provide an example of appropriate continuity of care for commonly encountered clinical scenarios 3. Recognize medication safety principles in commonly encountered clinical scenarios 4. Describe the importance of utilizing evidence-based medicine in commonly encountered clinical scenarios |
| 2:30 pm – 2:45 pm | Break |
| 2:45 pm – 3:45 pm | Expanding the Scope of Pharmacy Practice in South Carolina: A Focus on Oral and Injectable Contraception Marissa Pettit, PharmD; PGY1 Pharmacy Resident, Ambulatory Care, Tandem Health – USC COP <i>ACPE UAN 0062-9999-23-144-L03-P/T (1 credit hour, application-based activity)</i> At the completion of this activity, the pharmacist will be able to: <ol style="list-style-type: none"> 1. Discuss the requirements of the South Carolina Pharmacy Access Act 2. Compare the available hormonal contraception options including combined oral contraceptives, progestin only pill, rings, patches, and injections 3. Apply the components of the Pharmacy Access Act to practice 4. Determine an appropriate treatment option through a patient case At the completion of this activity, the pharmacy technician will be able to: <ol style="list-style-type: none"> 1. Discuss the requirements of the South Carolina Pharmacy Access Act 2. Identify the available hormonal contraception options including combined oral contraceptives, progestin only pill, rings, patches, and injections 3. Apply the components of the Pharmacy Access Act to a patient case |
| 3:45 pm – 3:55 pm | Break |
| 3:55 pm – 4:55 pm | Updates in the Management of Cancer-Associated Venous Thromboembolism Andy Maldonado, PharmD, BCOP; Assistant Professor, Clinical Pharmacy & Outcome Sciences, MUSC <i>ACPE UAN 0062-9999-23-145-L01-P/T (1 credit hour, application-based activity)</i> At the completion of this activity, the pharmacist will be able to: <ol style="list-style-type: none"> 1. Describe important risk factors for cancer-associated thrombosis 2. Predict which patients with cancer would benefit from prophylaxis for prevention of cancer-associated thrombosis 3. Summarize recent guideline updates for the management of cancer-associated thrombosis 4. Select an appropriate regimen for treatment of cancer-associated thrombosis At the completion of this activity, the pharmacy technician will be able to: <ol style="list-style-type: none"> 1. Discuss how the development of cancer-associated thrombosis may negatively affect prognosis 2. List contraindications for use of prophylactic anticoagulation 3. Compare and contrast medications used in the management of cancer-associated thrombosis |
| 4:55 pm – 5:00 pm | Closing Remarks Laura Holden, PharmD, BCPS; SCSHP President |

| Tuesday, October 3, 2023 – Residency Program Showcase | |
|---|---|
| 5:00 pm – 7:00 pm | Residency Showcase <i>(No CE will be awarded for this presentation)</i> |

CONTINUING EDUCATION ACCREDITATION INFORMATION: The University of South Carolina College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. The target audience for these continuing education activities is pharmacists and pharmacy technicians who are engaged in health-systems pharmacy practice. Please

see each session for CE available for pharmacists and/or technicians, faculty information, ACPE UANs, learning objectives, and CEU designations. Sessions shaded in gray are not CE-accredited sessions.

To claim CE credit, participants must attend sessions in their entirety (no partial credit will be awarded for attendance at a portion of a session) and must participate in all active learning activities and learning assessments. To have your CPE credit reported to the NABP CPE Monitor, participants must have their attendance verified and must follow the “Instructions to Claim CPE Credit” which will be provided to participants. This includes completing program and speaker evaluations at <http://cop.sc.learningexpressce.com> within 30 days and providing the correct NABP e-Profile ID and day/month of birth upon registration. Any credit not claimed within 60 days of the live event will be rejected by the NABP CPE Monitor. Please contact CE@cop.sc.edu or 803-777-9979 with any questions.

REGISTRATION AND FEES: Please visit <https://scshp.com> to view all information regarding registration fees and to register for the meeting.
